PROFESSIONAL SUMMARY

Team Lead with nearly 5 years of experience (since Dec 2021), grown from a frontend developer into a full-stack developer and project architect. Started with React.js and Next.js, and today I design the complete tech setup for projects — Next.js frontends, Nest.js APIs, MySQL databases, and Ubuntu server deployment. At Cloudus Infotech I lead the team, decide the architecture, and guide other developers as a senior. I also work as a freelance developer for MentalHappy (USA, via Upwork) on their Next.js website and Flutter app. I handle the full journey of a product — planning, development, QA testing, deployment, and Jira-based project management — and I use AI tools smartly to build faster at every step.

KEY HIGHLIGHTS

- Grew from frontend developer to Team Lead & Project Architect — now owning tech decisions, system design, and delivery of complete projects
- Full-stack skills: Next.js frontends, Nest.js APIs, MySQL databases, and live deployments on Ubuntu servers
- Led WaoSim, a global eSIM platform used in 50+ countries with 10+ payment options (Stripe, PayPal, Apple Pay, Google Pay, Alipay)
- Kept 90+ Google Lighthouse scores on the SIRO Hotels Dubai website (Next.js + Contentstack CMS)
- Delivered 15+ production projects and mentor junior developers on code standards, reviews, and best practices
- Cross-platform experience: web (Next.js), mobile (Flutter), and CMS platforms (Webflow, Contentstack)

WORK EXPERIENCE

Team Lead & Project Architect May 2024 – Present

Cloudus Infotech Pvt. Ltd. — Surat (joined as Senior Developer, grew into Team Lead & Project Architect)

Tech: Next.js, Nest.js, TypeScript, MySQL, Tailwind CSS, Firebase, Stripe, Ubuntu Server, CI/CD

- Grew from Senior Developer into Team Lead and Project Architect as responsibilities expanded with each delivered project
- Architect the technical stack and system design for client projects, and lead them from planning through production release
- Work full-stack: Next.js frontends, Nest.js REST APIs, MySQL database design, and deployment/management on Ubuntu servers
- Guide and mentor developers as senior — code reviews, best practices, performance optimization, and clean-code standards
- Set up CI/CD pipelines, reusable component libraries, and Jira-based sprint workflows to improve team velocity

- Integrate secure authentication (Firebase, 2FA) and payment processing (Stripe and 10+ gateways) across products
- Use AI-assisted development workflows to accelerate research, coding, and QA across every project

Freelance Full-Stack & Flutter Developer

Mar 2026 – Present

MentalHappy (via Upwork) — Remote, USA

Tech: Next.js, Chakra UI, Node.js, Flutter, Webflow CMS, Jira

- Develop and maintain the MentalHappy web platform (Next.js) and Flutter mobile app for a US mental-health and wellness company
- Manage Webflow CMS so non-technical team members can publish blogs, resources, and landing pages independently
- Own tasks end-to-end through Jira ticket management — estimation, development, QA testing, and release
- Ensure accessibility (a11y) and performance standards suited to a sensitive mental-health audience

Jr. React.js Developer

Dec 2021 – Apr 2024

Rejoicehub LLP

Tech: React.js, Vite.js, JavaScript (ES6+), SCSS, Redux, Firebase, REST APIs

- Built user-centric, mobile-first frontend applications using React.js and Vite.js with optimal performance
- Implemented complex state management with Redux and Context API for dynamic, data-heavy applications
- Integrated REST APIs, contributed to component-based UI architecture, and participated in Agile sprints, QA testing, and deployments

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), Vite.js, Tailwind CSS, SCSS, Bootstrap, Chakra UI
Backend & Database	Nest.js, Node.js, REST APIs, MySQL, MongoDB, Firebase
Mobile	Flutter, Dart, WebView integration
Server & DevOps	Ubuntu Server, Nginx, CI/CD Pipelines, Vercel, AWS (S3, EC2), GitHub, GitLab, Azure DevOps
CMS	Webflow, Contentstack, CKEditor
Payments	Stripe, PayPal, Apple Pay, Google Pay, Amazon Pay, Alipay, Razorpay, UPI
Project Management	Jira, Asana, Agile / Scrum, sprint planning, ticket management
AI Workflows	AI-assisted development, research, code review, and QA — building faster with AI tools across the stack

CORE STRENGTHS

Project Management | Team Leadership & Mentoring | Communication | Quick Learner | Research & Problem Solving | User Experience (UX) | QA Testing | Dedication & Ownership

KEY PROJECTS

WaoSim — Global eSIM Purchase Platform waosim.com

Next.js, TypeScript, SCSS, Firebase, Stripe

- Led the frontend team for a global eSIM platform serving 50+ countries; integrated 10+ payment methods including Stripe, PayPal, Apple Pay, Google Pay, and Alipay
- Implemented 2FA (TOTP), affiliate tracking, multi-language support, dynamic currency switching, push notifications, and all VAPT security fixes

Exambro — School Exam & Learning Management Platform exambro.app

Next.js, TypeScript, Tailwind, Flutter (WebView)

- Led full frontend of a multi-tenant, multi-school platform with role-based dashboards for Super Admin, School Admin, Teachers, and Students, rendered inside a Flutter app via WebView
- Built a print-ready PDF generator for exam papers and results, MathJax equation rendering, and a real-time Live Test module with timer and auto-submission

MentalHappy — Mental Health & Wellness Platform mentalhappy.com

Next.js, Chakra UI, Node.js, Flutter, Webflow CMS

- Build and maintain the web platform and Flutter app connecting users with therapists, group sessions, and self-care resources
- Integrated Webflow CMS for non-technical content management; manage delivery via Jira with a focus on accessibility and performance

SIRO Hotels — Dubai Hotel Website sirohotels.com

Next.js, TypeScript, Storybook, Contentstack CMS

- Delivered a CMS-driven hotel website with dynamic booking, 90+ Lighthouse scores, and optimized large video/image delivery

OlySim — India eSIM Purchase Platform olysim.com

Next.js, TypeScript, SCSS, CKEditor

- Led full frontend for an India-focused eSIM platform — browsing, checkout, and account flows with UPI/card/wallet payments and strong SEO

Qatar Duty Free — Dukkan Employee eCommerce dukkan.qatardutyfree.com

Next.js, TypeScript, Storybook, Contentstack CMS

- Developed a fully CMS-driven eCommerce platform with admin-controlled page layouts and reusable Storybook components

EDUCATION

Bachelor of Engineering (B.E.) — Gujarat Technological University 2020 • CGPA: 7.9

A.D. Patel Institute of Technology

Languages: English, Hindi, Gujarati
